

# Elsafe Zenith Floor & In-Wall Electronic Safes

**Hinti** GmbH  
Hotelsupplies

The choice of in-room electronic safes becomes easy when you can choose Zenith to secure travelers belongings. Zenith has advanced security, with the industry's leading audit trail system that allows you to print out comprehensive report on all safes activities.

Zenith floor and drop models are most suitable for front desks or back offices, while the in-wall model can be installed behind a beautiful painting inside the room.

## Optional features

- : Anti tamper switch
- : Rental mode by activation code
- : Power outlet inside the safe
- : Customization on steel box color or reduced depth

Floor Safe

In-Wall Safe

## SPECIFICATIONS

### Elsafe Service Tools

A service tablet or a laptop is used with an interface cable and a unique service code. The service tool is also utilizing a software called Safelink for Windows for synchronizing programming between the service tools and safes. For instance, to securely override, uploading programs, change settings or transfer data to the electronic safes.

### Horizontal shelf on Floor and Drop

The horizontal shelf inside the floor and drop can be adjusted and placed 1/3 from the top inside the safe or in the middle.

### Power Outlets

Optional internal power outlet in different types (EU, UK, US or Universal with USB).

### PinKey

PinKey is a compact electronic PIN code protected key to securely override and service Elsafe safes. This service tool must be combined with a USB docking cable and the Admin software to commission, service open a safe and print out events.
